

DetoxiCleanse™

Detoxification Nutritional Drink Mix

Low Allergy Potential · Low Glycemic Load

Gluten Free

Product Summary

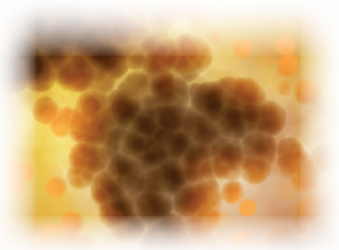

In addition to a broad spectrum of vitamins and minerals that support detoxification pathways, the DetoxiCleanse™ Detoxification Nutritional Drink Mix contains a blend of amino acids, phytochemicals, and antioxidants that support the elimination of toxins and protect cells from damage. Among these nutrients is N-acetyl cysteine, an amino acid known to restore hepatic glutathione levels, prevent liver damage, and reduce the burden and toxicity of heavy metals such as methylmercury and cadmium. Also included is alpha-lipoic acid, which supports glutathione conjugation, provides antioxidant support in both fat- and water-soluble tissues, and prevents nerve cells from mercury damage as well as increases mercury excretion.

Green tea extract and milk thistle are both known for their hepatoprotective properties, as well as for their potent antioxidant capacity against environmental toxins. Milk thistle also enhances glucuronidation and protects against glutathione depletion. Additionally, the DetoxiCleanse Detoxification Nutritional Drink Mix mix contains broccoli powder, comprised of glucosinolates that have been shown to improve estrogen metabolism, and provide support for phase II conjugating enzymes. The use of sodium alginate, cellulose, apple pectin and guar gum promote healthy digestion and elimination of toxins by reducing stool transit time, and the use of organic-sprouted brown rice as the gluten-free protein source allows those with celiac disease or gluten sensitivities to safely restore intestinal wall health.

Unique Features

- Nutrients and phytochemicals designed to increase production of intracellular glutathione for enhanced elimination of toxic metals, free radicals, and other pollutants
- Improved bowel function, reducing transit time and increasing frequency of bowel movements
- Liver and kidney support for optimal detoxification and function
- Formula reduces recirculation of toxins during elimination process
- Provides a gluten-free protein source for those with gluten sensitivities to safely restore intestinal wall health
- Low glycemic index and load, low-allergy-potential, gluten-free

DetoxiCleanse™
Detoxification Nutritional Drink
Mix Powder
600 g
Code: 9223

Serving size: 2 scoops (40 g)
Feature: Naturally-sweetened,
pleasant tasting powder

Other ingredients: Organic cane sugar, natural flavors (black cherry, lemon, lime), gum arabic.

the stool.

Drug Interactions: N-acetyl cysteine may cause hypotension and headaches when taken with nitroglycerin. Some components may also have a hypoglycemic effect, and caution should be used for patients on antidiabetic therapy.

Note: DetoxiCleanse is also available as part of the 7-Day ReduceXS Total Body Cleansing Program which provides additional support for intestinal repair and rejuvenation.

Other Ingredients: Organic cane sugar, natural flavors (black cherry, lemon, lime), gum arabic.

Contains no artificial preservatives, colors or sweeteners and no dairy, gluten or wheat. Sealed for your protection. Do not use if seal is broken. For freshness, store in a cool, dry place.

Suggested Usage:

For Daily Maintenance & Mild Detoxification: Start your day with 2 scoops (40 g) mixed as instructed below or as directed by a health care professional.

5-Day Modified Diet: 2 scoops (40 g) 2–3 times per day for 5 days or as directed by a health care professional.

Mixing Instructions: Blend, shake or briskly stir 2 scoops (40 g) into 8 fl. oz. of purified water or freshly pressed juice (vegetable or fruit). You can also customize your drink mix by blending 2 scoops (40 g) with 8 fl. oz. of purified water and 1 cup of fresh or frozen organic berries or other fruit. Stir and drink immediately.

Contraindication: Some of the components should be avoided during pregnancy. While no specific contraindication exists or is predicted, data is lacking for use during lactation, and in children, and the dosage may need to be reduced for those less than 18. Consult your health care professional if you have been experiencing persistent diarrhea, abdominal pain, unexplained weight loss or blood in
